FOOTWEAR 2018

BUILDING A BETTER GAME FROM THE GROUND UP.

X SERIES

The X Series is designed to meet the needs of serious golfers.

DEL MAR SERIES

The Del Mar Series provides the perfect balance of comfort, performance and fashion forward style, that delivers on or off the course. These shoes are deceptively technical.

CHEV SERIES

The Chev Series contains all new designs for 2018. Core basics incorporating proprietary technologies that provide, comfort, performance and style.

SKY SERIES

The Sky Series delivers an industry leading combination of impeccable style and performance to fully meet women golfers demands.

Having the right footwear platform on which to build your game is both technically and aesthetically important. In our 2018 collection, we've made sure you'll find the right combination to comfortably get the most out of your game.

Duncan Patmore | Footwear Manager | Callaway EMEA

BUILT TO
TRANSFER
MORE **POWER**
AND **CONTROL.**

The X Series is designed to meet the needs of serious golfers.

Xfer™, meaning transfer - is a combination of technologies focused on maximising the power transfer that can be generated from the ground up, by creating a more stable platform we can minimise energy loss Xfer-ing greater power and control into your game.

KEY FEATURES

Garment soft full grain leather upper

Opti-soft foam energy return midsole

Ortholite® molded comfort inssole with 3D cushioning and support

Xfer™ lateral power wall

BOA fastening system

Opti-vent® mesh liner for breathability and heat management

New XTT hybrid TPU outsole

Chev cluster continuous traction lugs

BOA fastening system

The BOA system provides a uniform closure for a comfortable and secure fit, keeping you stable and allowing better access to your shoe's traction technology. Dial in the perfect fit so you can keep your focus where it matters.

Fusion 4x4 outsole

A worlds first fusion of dynamic TPU cleats and (spikeless) permanent traction, that gives the comfort of a spikeless shoe but with the performance of cleats.

Soft full grain leather upper

The softest full grain performance leather for a sumptuous look and feel.

A secondary coloured pair of laces are included.

X SERIES

XFER™ FUSION BOA

The BOA version of the Xfer™ Fusion is the ultimate in modern permanent traction technology. A Tour performance piece of equipment combining the worlds first TPU hybrid outsole with sumptuous full grain leather, eyecatching design, and fully loaded Xfer™ performance Tour technology.

CALLAWAY SOCK TECHNOLOGIES

Technology transfers moisture away from the feet to help in evaporation.

Aysmmetric fit customised left and right foot shaped toe for optimum fit and performance.

Fabric features layers of spandex to ensure maximum range of motion so the sock moves with the golf swing.

Callaway Opti-vent fabrics allow for the garment to have maximum breathability.

This anti-microbial treatment keeps the garment fresh over time, reduces odour and helps maintain durability.
